

NPO OF THE WEEK!

PRUP/ PUERTO RICAN UNITY FOR PROGRESS

June 23, 2020

During this unprecedented time, we at the NonProfit Development Center of Southern NJ are working to ease the burdens faced by our NPO community, especially those on the front-lines delivering essential services. We are proud to feature each of the three winners of our Pandemic Relief Grants over the coming weeks.

To begin, we would like to introduce our NPO neighbor in Camden City, Puerto Rican Unity for Progress (PRUP)! PRUP was established in 1976 with the mission to improve access to economic, social and cultural opportunities and resources for low income individuals and their families with special emphasis on the Hispanic population. Since then, thousands of Camden City residents have benefitted from individualized case management, financial literacy education, senior empowerment and youth programming.

PRUP will be using the \$500 grant awarded from NPDC's Pandemic Relief Grant Program to help provide nutritious food for their youth summer lunch program. We are proud to partner with PRUP and congratulate them on their terrific work within the Camden community!
